November 2021, Solaris Buisness Intelligence

Digital Diagnostic

During this five weeks-long mission, we create digital diagnostic support that could adapt to any type of the eventual client companies

EDUCATION

2022, UFRJ in Rio de Janeiro

Academic exchange in Brasil

I have done a six months academic exchange in Rio de Janeiro. The UFRJ, the 1st ranked university in South America represented an opportunity for me to improve my Portuguese linguistic skills, discover a new culture, and follow my cursus.

2020-2022, IMT Mines Alès

Two years in the high engineering school IMT Mines Alès

It is an engineering school, among the top 10 in France, that dispenses among other computer science courses. I have already completed two years and I will do the last one after returning from my gap year.

You can find every detail about the formation [here](#).

2018-2020, Lycée François 1er in Fontainebleau

Two-year intensive preparation courses

These courses are hard-working classes to prepare the students for the entrance exams to top french engineering schools.

2018, Lycée Blaise Pascale in Brie-Comte-Robert

High School diploma, scientific option, equivalent to A Levels with honours

ACTIVITIES & INTERESTS

Black Belt in Judo

I practiced judo for fifteen years. This martial art has played quite a primordial role in my education. All along these years, my sensei taught me humility, self-control, perseverance, courage, honor, and respect. These remains the fundamental pillars of judo.

Tedx Event Presidency

I've been elected by my pairs to be in charge of the presidency of the Tedx conferences organisation. We have been working for a year to make this event happened, which will take place on the 30th of August 2022.

Hospital Service Agent during Covid-19 pandemic

Considered as duty for the nation.
